

## QEEG Clinical Report

BrainLens V0.4

### Report Description

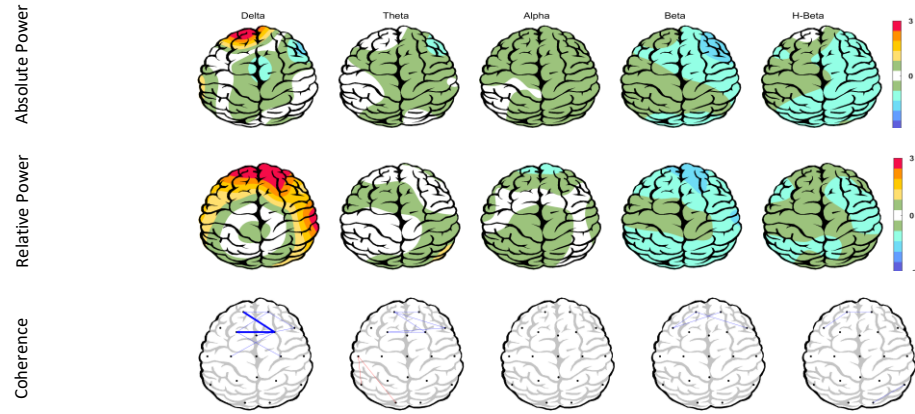

### Personal & Clinical Data

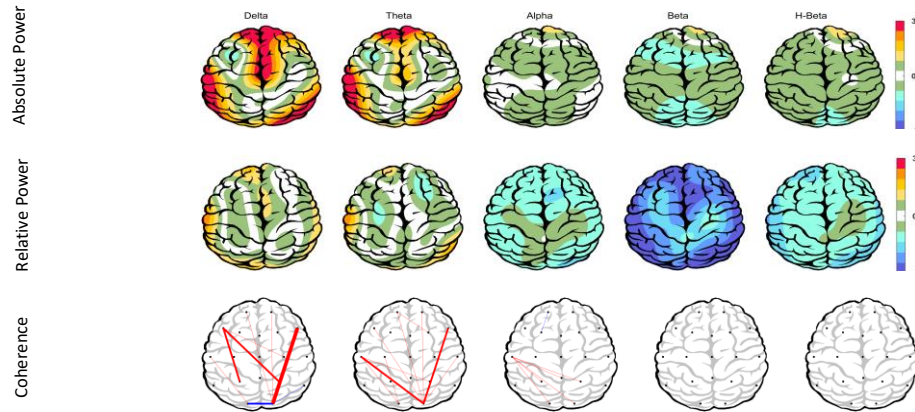

|                     |                                          |                    |            |
|---------------------|------------------------------------------|--------------------|------------|
| Name                | Mehdi Gholaminezhad                      | Date of Recording  | 2025-06-01 |
| Date of Birth - Age | 1980-07-14 - 45.1                        | Gender             | Male       |
| Handedness(R/L)     | Right                                    | Source of Referral | Dr Saemi   |
| Initial Diagnosis   | ADHD-Anxiety-Headache-Hyper Activity-OCD |                    |            |
| Current Medication  | -                                        |                    |            |

Dr Saemi

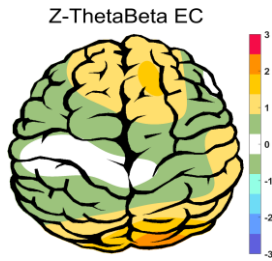

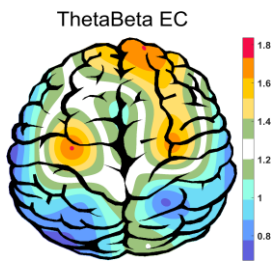

## Z Score Summary Information (EC)

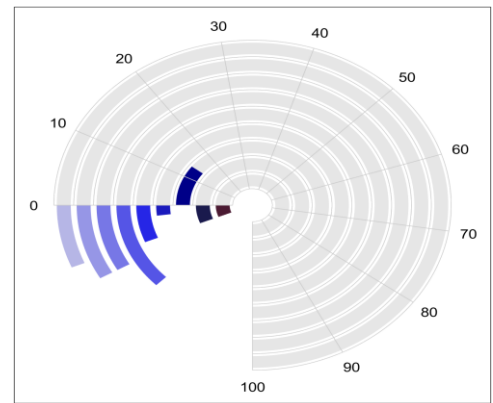

## Z Score Summary Information (EO)

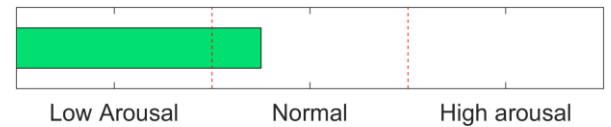

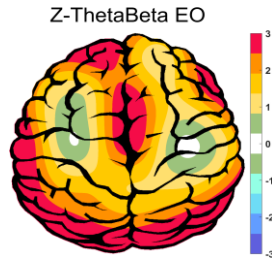

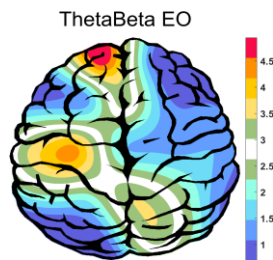

## E.C.T/B Ratio ( Raw- Z Score)

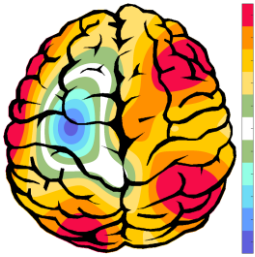

## Arousal Level

## E.O.T/B Ratio ( Raw- Z Score)

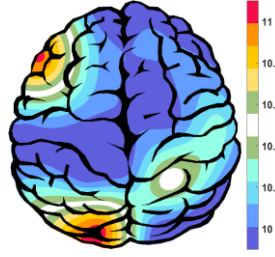

## APF(EO)

Frontal APF= 10.17

Posterior APF= 10.38

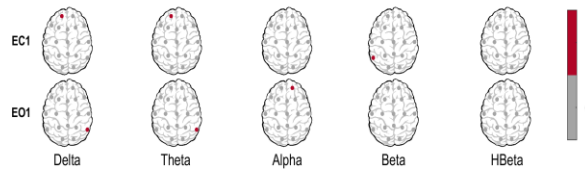

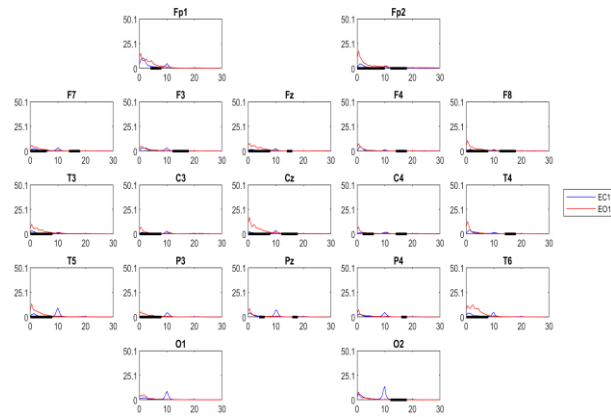

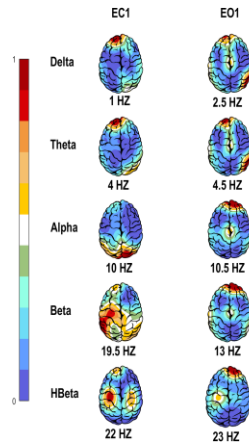

## APF(EC)

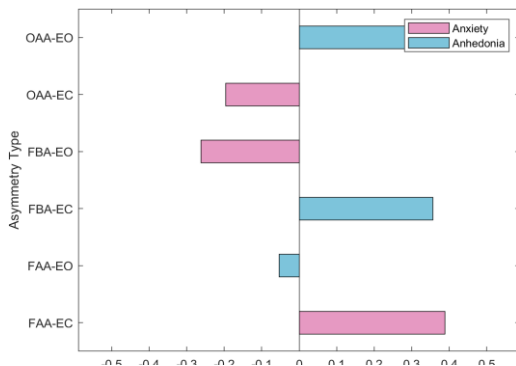

Frontal APF= 10.00

Posterior APF= 10.00

## EEG Spectra

## Alpha Asymmetry(AA)

## Alpha Blocking
