

## QEEG Clinical Report

BrainLens V0.4

### Report Description

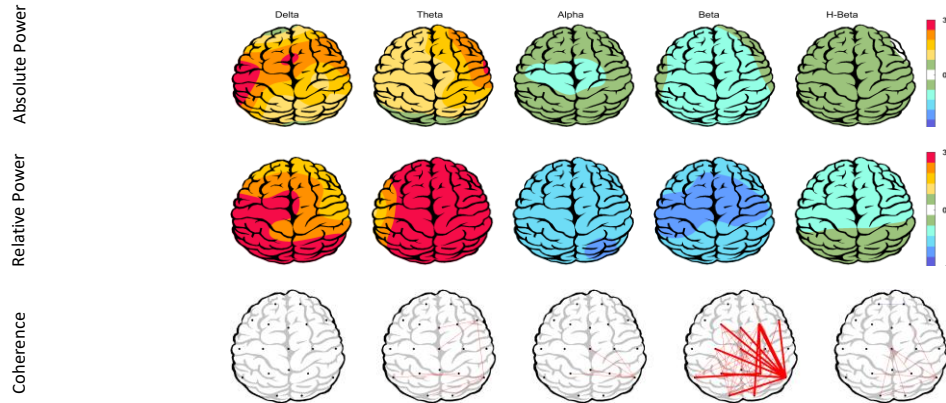

### Personal & Clinical Data

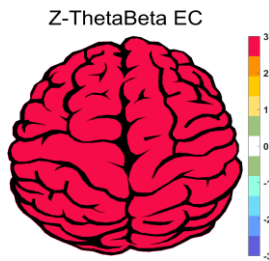

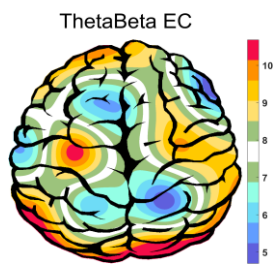

|                     |                                  |                    |                   |
|---------------------|----------------------------------|--------------------|-------------------|
| Name                | Mohsen Nikbagh                   | Date of Recording  | 2025-07-27        |
| Date of Birth - Age | 1995-08-19 - 30.2                | Gender             | Male              |
| Handedness(R/L)     | Right                            | Source of Referral | Dr Mohammadhasani |
| Initial Diagnosis   | Bipolar Disorder                 |                    |                   |
| Current Medication  | Citalopram-Levothyroxine-Rahakin |                    |                   |

Dr Mohammadhasani

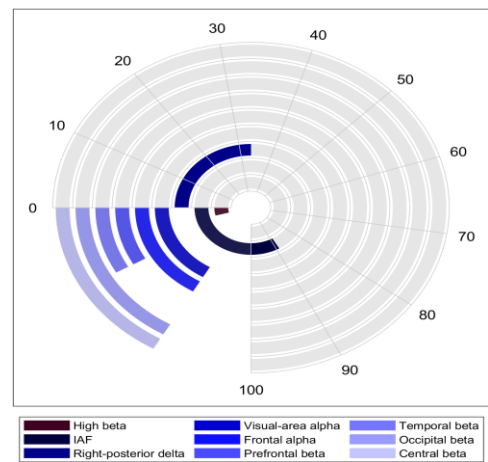

## Z Score Summary Information (EC)

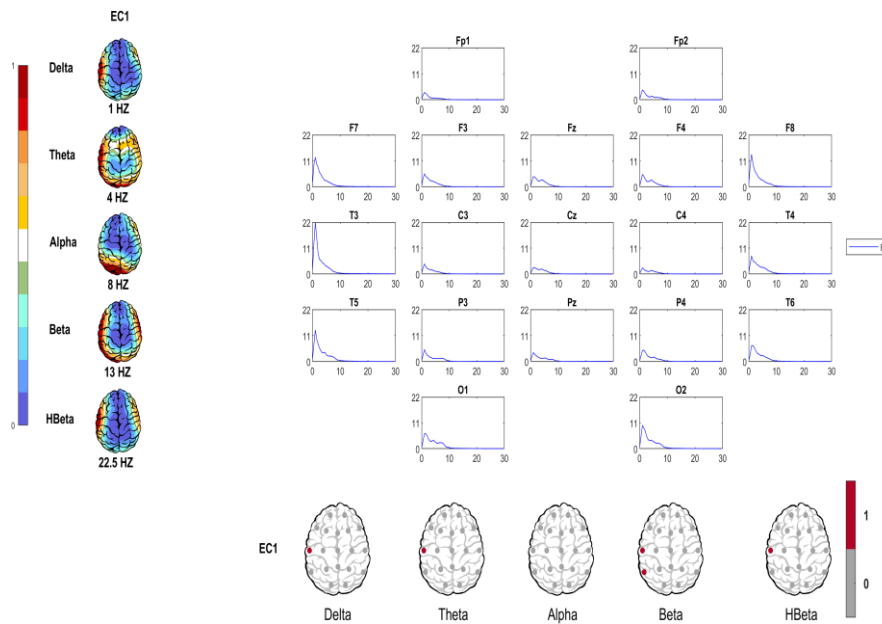

## E.C.T/B Ratio ( Raw- Z Score)

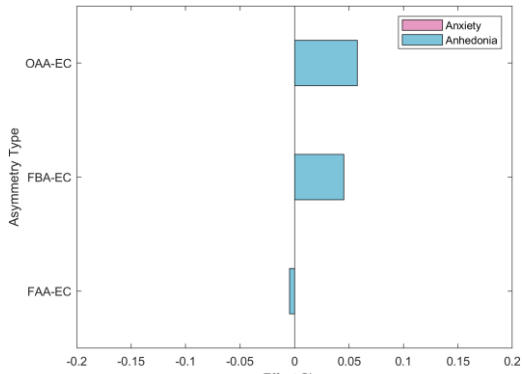

## Arousal Level

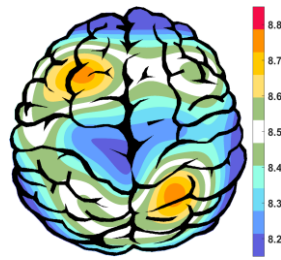

## EEG Spectra

## Alpha Asymmetry(AA)

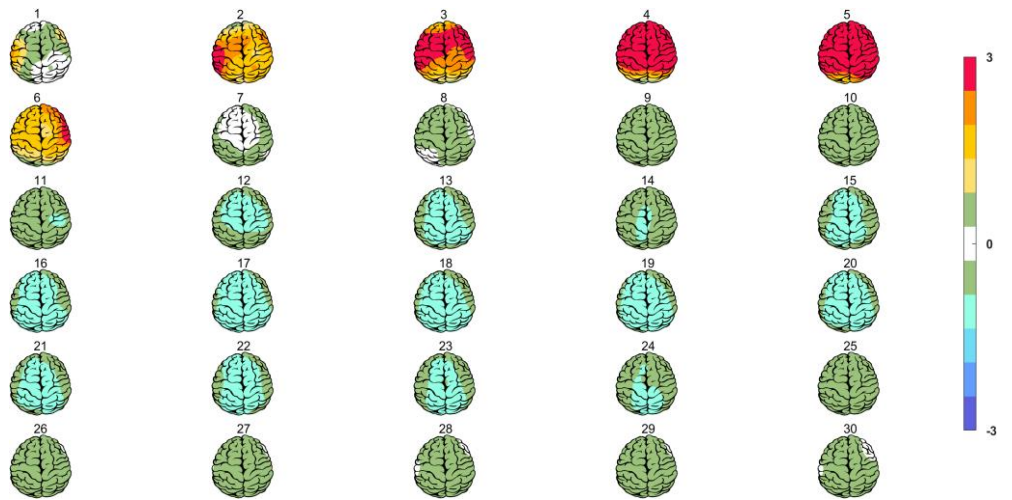

## APF(EC)

Frontal APF= 08.33

Posterior APF= 08.25

## Absolute Power-Eye Closed (EC)

## Relative Power-Eye Closed (EC)
