

## QEEG Clinical Report

BrainLens V0.4

### Report Description

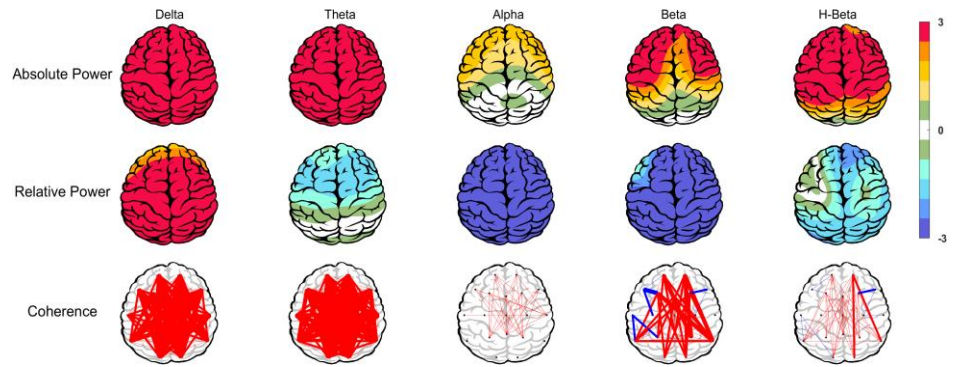

### Personal & Clinical Data

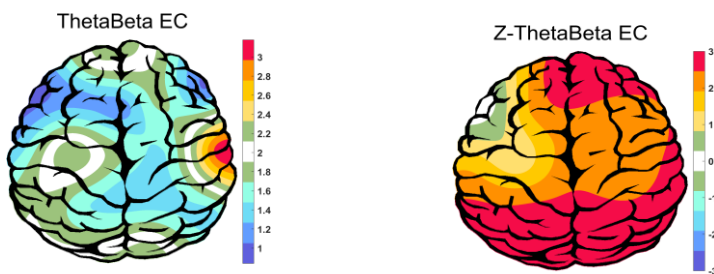

|                     |                                       |                    |                   |
|---------------------|---------------------------------------|--------------------|-------------------|
| Name                | Sina Rostam Nrzhad                    | Date of Recording  | 30-Dec-2024       |
| Date of Birth - Age | 19-Dec-2005 - 19.03                   | Gender             | Male              |
| Handedness(R/L)     | Right                                 | Source of Referral | Dr Mohammadhasani |
| Initial Diagnosis   | Bipolar Disorder-Substance Drug Abuse |                    |                   |
| Current Medication  | Buprenorphine-Rahakin-Melatonin       |                    |                   |

Dr Mohammadhasani

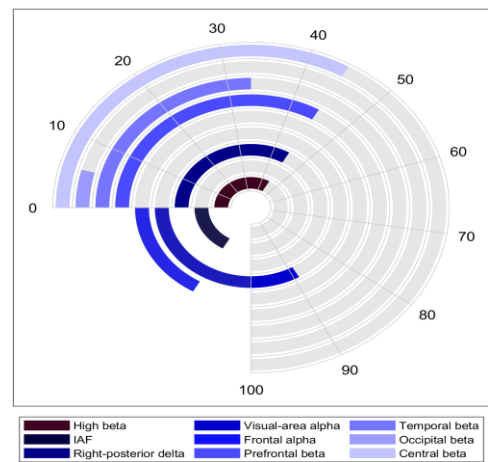

## Z Score Summary Information (EC)

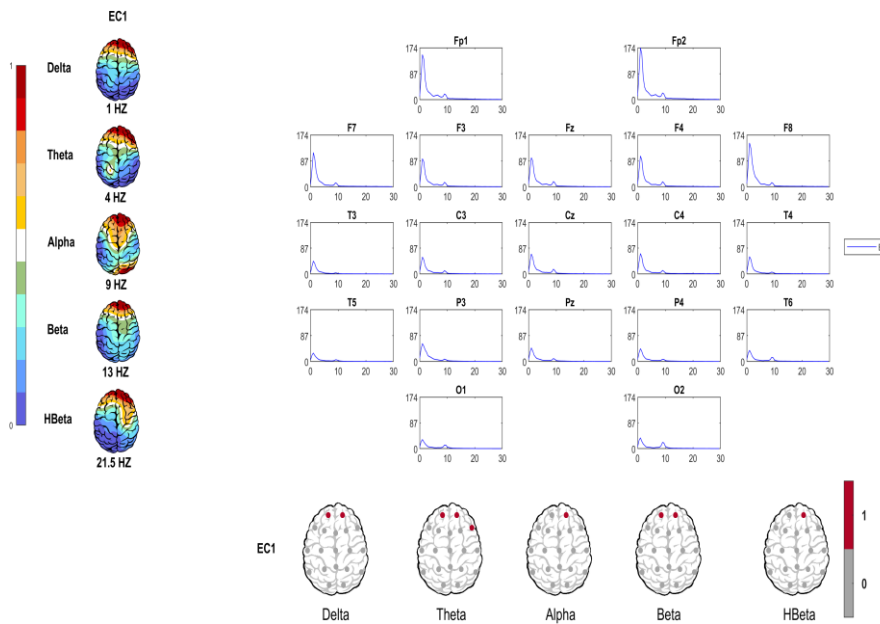

## E.C.T/B Ratio ( Raw- Z Score)

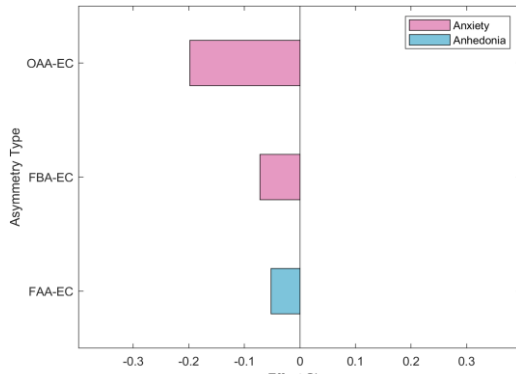

## Arousal Level

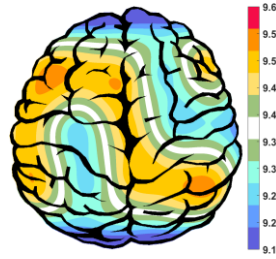

## EEG Spectra

## Alpha Asymmetry(AA)

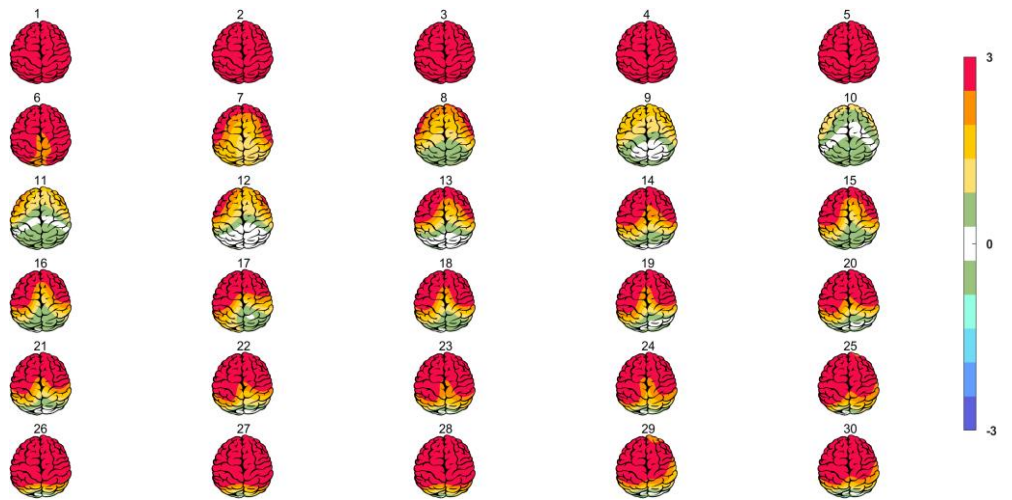

## APF(EC)

Frontal APF= 09.25

Posterior APF= 09.50

## Absolute Power-Eye Closed (EC)

## Relative Power-Eye Closed (EC)
